

HOW WE ARE GREEN

- ♻️ **Environmentally friendly cleaning chemicals** : Our general purpose, washroom, glass, and carpet cleaning products meet Green Seal's Standard for Industrial and Institutional Cleaners (GS-37). These will clean effectively while helping to reduce toxic pollution and waste, conserve resources and habitats, and minimize global warming and ozone depletion
- ♻️ **Microfiber dusting cloths** : Cleaning with microfiber products is environmentally friendly because chemical use can be minimized. Microfiber products are lint free, extremely soft and do not scratch surfaces, but at the same time, they are sturdy and tough on dirt. Test results show microfiber can reduce bacteria levels by 96% yet requires less labor
- ♻️ **Eco-friendly vacuums**: We utilize vacuums that have the sealed HEPA filtration system as well as received the Carpet & Rug Institute's Green Label certification
- ♻️ Use **recyclable** spray bottles and buckets
- ♻️ Invoices are e-mailed to our customers, thus **reducing paper consumption and printing ink**
- ♻️ We use online payment methods to **minimize paper consumption**
- ♻️ Our company business cards are made from **recycled organic paper**
